

• **DY Patil University - Responsive Landing Page**

This project is a simple, responsive landing page for DY Patil University. It demonstrates use of basic HTML5, CSS3 (Flexbox, media queries), and mobile-responsive navigation.

• **Features**

- Header with DY Patil logo and navigation menu
- Hero section with heading, paragraph, and CTA button
- Footer with social media links
- Responsive layout for desktop and mobile
- Mobile hamburger menu toggle using JavaScript

• **Outcome**

This project helps understand:

- HTML structure
- CSS layout using Flexbox
- Responsive design via media queries
- Navigation logic and toggle for mobile
